

The Cryptocurrency that Powers the
Focus Marketplace

ALL ABOUT FOCUS TOKEN

50% of total transaction revenue from the Focus Market platform goes to stakers of the FOCUS token

Running on the Ethereum Network, FOCUS token will be environmentally friendly after Ethereum 2.0 is deployed

Since September 2021, digital NFT marketplaces are turning over **TENS OF BILLIONS** a month

100 Million
Total Supply of
FOCUS tokens

The success of the platform is for the community

By staking the FOCUS token, you will receive a share of 50% of transaction value traded on Focus Market.

HOW IT WORKS

An Example

FOCUSMARKET

Let's say that transaction revenue on the Focus Market platform will be \$2 million in September 2022

All FOCUS token holders who stake their tokens, including Bob will receive a 50% share of the June transaction revenue. That is to say, \$1 million will be shared among FOCUS token stakers in October 2022!

Bob holds FOCUS tokens

Technical Specifications:

FOCUS token is a ERC 20 (Ethereum Network) cryptoasset with a total supply of 100 million tokens. It has a burnable function. This means that FOCUS token is deflationary and is expected to rise in value over time.
